

Assignment 01b_s

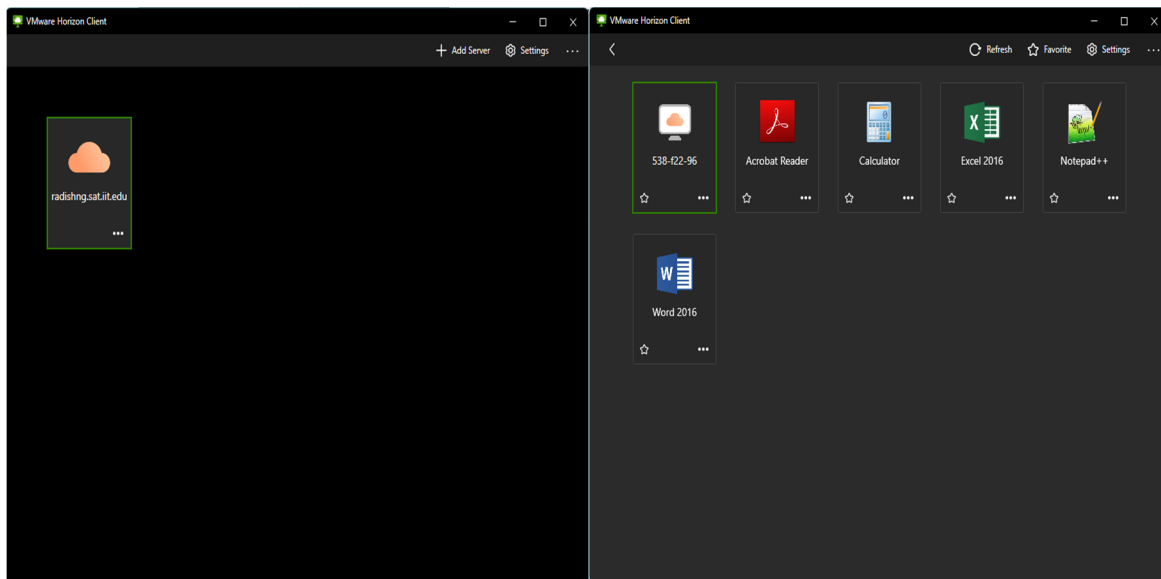

Alan Palayil

09/3/2022

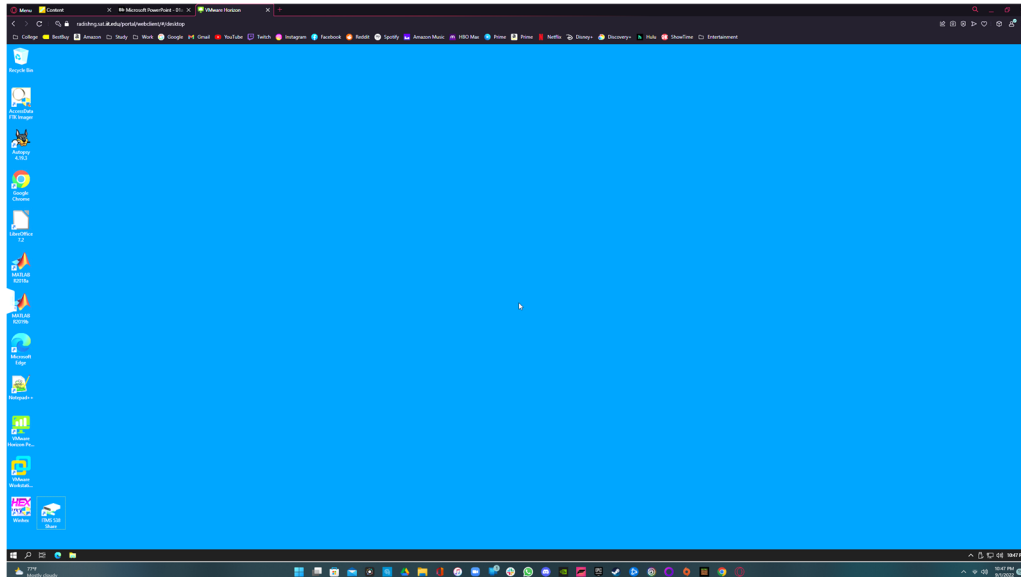

1. Completed the slides of “Welcome to ITMS 538- Radish Info” to access the configured RADISH virtual desktop.
2. Connected to the <https://radishng.sat.iit.edu/> using the credentials provided.
3. Connecting to Windows 10 RADISH desktop.

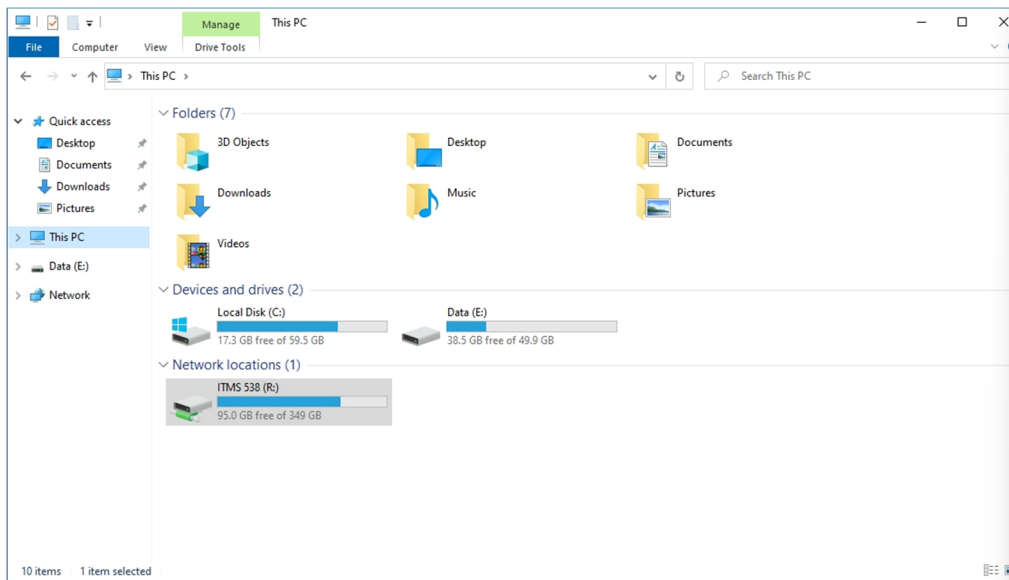

4. a. I was able to successfully login into the RADISH using both the VM Horizon and HTTPS.

b. I was able to use the Radish Cyber Forensics Windows 10 desktop on both HTTPS and VM Horizon client.

c. I am able to access the C:, E:, and R: drives from the Windows 10 desktop.

5. a. The VM includes the basic Windows 10 OS with different tools included in the R: drive. The tools are also viewed in the desktop. The Local Disk (C:) is the OS drive with Windows booted in. The Data (E:) include the Linux OS.
b. I believe if the lab included modules would make it easier to work on such as explanations to the applications used, examples; and if the folder were named something else other than "Share".
