"Make sure the recipient also uses WinRAR to extract" and extracts onto a NTFS drive – Thomas Weller Mar 23 at 21:08

Yeah I tried that USB method which worked, but there was some issues. On another attempt it worked. – Aapo Pesonen Mar 24 at 6:07

7-Zip gained the ability in version 9.30 alpha, according to its history notes. – Andrew Morton Mar 24 at 12:15

As an addendum to @user1686's answer:

Use 7-Zip with it's -sns Option to put the .VBS file with its ADS into a WIM container (eg. 7z a a.wim -sns *.vbs) and send that container file. And just like with WinRAR you can pack, unpack and even browse the file with ADS in 7-Zip's GUI. Compressing the container WIM is possible too but requires a 2nd step.
